

CHENVI1201CC

Qingdao Tianren Environmental Engineering Co., Ltd.

Company:

Founded in July, 1993, we have four holding companies and an R&D center. Our business ranges from biomass energy to the design, construction, management and counseling services for water treatment projects.

Currently, the comprehensive utilization of clean energy project, which is filled with the investment of 380 million RMB, is expected to reach the annual revenue of 250 million RMB at its full capacity.

Desired Cooperation:

We seek all forms of cooperation, particularly cooperative production or joint venture production.
