Aluminum Body and Top of Rail Passenger Car High Speed Multiple Unit Train

Project Introduction:

Total Investment (Euro): 60 million

Location: Changchun

Desired Cooperation: joint venture and co-production

Project Details: production of aluminum body and top of high-speed multiple unit train

Expected Profit (Euro): 150 million sales revenue

CHTRAI1607CC

Rail Passenger Car Cable Project

Project Introduction:

Total Investment (Euro): 20 million

Location: Changchun

Desired Cooperation: joint venture and co-production

Project Details: rail passenger car cable project

Expected Profit (Euro): 50 million sales revenue

CHTRAI1608CC

Rail Passenger Car Hollow Axle Project

Project Introduction:

Total Investment (Euro): 60 million

Location: Changchun

Desired Cooperation: joint venture and co-production

Project Details: rail passenger car hollow axle project

Expected Profit (Euro): 150 million sales revenue

CHTRAI1609CC

Rail Passenger Car Gear Transmission Project

Project Introduction:

Total Investment (Euro): 40 million

Location: Changchun

Desired Cooperation: joint venture and co-production

Project Details: rail passenger car gear transmission project

Expected Profit (Euro): 100 million sales revenue

CHTRAI1610CC

Rail Passenger Car Coupler Buffer System and Braking System Project

Project Introduction:

Total Investment (Euro): 40 million

Location: Changchun

Desired Cooperation: joint venture and co-production

Project Details: rail passenger car coupler buffer system and braking system project

Expected Profit (Euro): 80 million sales revenue

CHTRAI1611CC

Rail Passenger Car Traction Convertor, Auxiliary Convertor and Network Control Project

Project Introduction:

Total Investment (Euro): 30 million

Location: Changchun

Desired Cooperation: joint venture and co-production

Project Details: rail passenger car traction convertor, auxiliary convertor and network control project

Expected Profit (Euro): 50 million sales revenue

CHTRAI1612CC

Rail Passenger Car Door and Window Project

Project Introduction:

Total Investment (Euro): 20 million

Location: Changchun

Desired Cooperation: joint venture and co-production

Project Details: rail passenger car door and window project

Expected Profit (Euro): 30 million sales revenue

CHTRAI1613CC

Rail Passenger Car Interior Decoration Project

Project Introduction:

Total Investment (Euro): 30 million

Location: Changchun

Desired Cooperation: joint venture and co-production

Project Details: rail passenger car interior decoration project

Expected Profit (Euro): 50 million sales revenue

CHTRAI1614CC

Rail Passenger Car Overhaul Comprehensive Base Project

Project Introduction:

Total Investment (Euro): 300-500 million

Location: Changchun

Desired Cooperation: joint venture and co-production

Project Details: rail passenger car overhaul comprehensive project

Expected Profit (Euro): 800 million-1 billion sales revenue

CHTRAI1615CC

Super Light Railway R&D Project

Project Introduction:

Total Investment (Euro): 500-800 million

Location: Changchun

Desired Cooperation: joint venture and co-production

Project Details: R&D and manufacturing of super light railway

Expected Profit (Euro): 15 billion sales revenue
